### DETAILED ACTION

Applicant's arguments filed 10/29/03 have been fully considered but they are not persuasive. See argument below.

I. Rejection of claims 2,3,5-10,12-24 under 35 USC 103(a) as being obvious over Vu on record will be maintained for reasons on record and reasons as follows.

Applicant points out that Examiner has misinterpreted Applicant's definition of micro-molar active chelator. Applicant argues that Examiner has interpreted micro-molar active to mean an amount of chelator; whereas, Applicant definition of micro-molar active chelator is defined as chelator that is significantly able to inhibit the growth of microorganisms when the microorganisms are present at a concentration of  $3 \times 10$  (mol)(dm<sup>3</sup>) or less. Applicant argues that Vu does not disclose that the addition of chelator to the antiperspirant results in the chelator being micro-molar active. Examiner argues that the micro-molar active property of the chelator is inherent to the chelator when the chelator is combined with the antiperspirant. For this reason, the rejection on record is maintained.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1616

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
